MORE OPTIONS MORE OPPORTUNITIES

Are you getting what you need from your printer?

Choosing the right printer can be the key to opening up new business opportunities and bringing more profit to your business. Whether you are looking for a classic business card or an eye-catching promotional product, your printer should be your best resource for making your business stand out.

VALUE

One of the first things to consider when choosing a printer might be pricing, but the right printer will offer you more than just low pricing. After all, if your print is affordable because the product you receive is low quality, that price will not be worth it. The best printers offer you a variety of quality print products at a variety of price points.

QUALITY

Getting the right color is key to ensuring your print highlights what's best about your business. As a Certified G7 Master Printer, we are committed to using state-of-the-art technology, printing techniques, proofing, press controls, and standards to offer you a precise color match at every stage of the print process.

SELECTION

A wide selection of products is also important because it allows you to reach out to new customers. Having more choices allows you to choose the products that are the best fit for your business and create a print product that speaks to your customers.

SUPPORT

The right printer has the expertise to help you navigate the products that are a good fit for you and your business. With samples to let you see how finished print products can be combined to create a complete suite of print products, flyers to help you navigate product information, and other quality informational pieces, your printer brings their expertise to your print order.

SUCCESS

Whether you have questions about your order, need a quick turnaround on products, or are looking for additional support as you create a complete suite of print products, the right printer can help turn your challenges into successes.

Order today to discover the new opportunities your printer can provide!

Even more options are at your fingertips. Visit our website for:

Envelope Style Guide

#10 Envelope

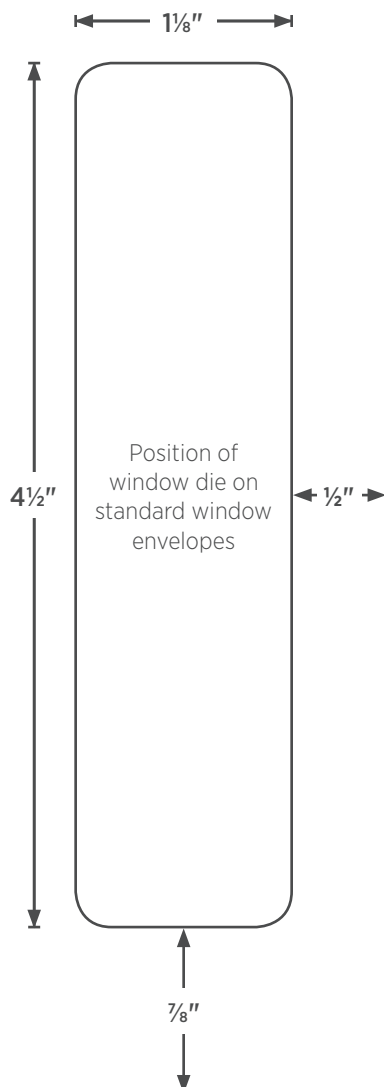

4 1/8" x 9 1/2"

#9 Envelope

3 7/8" x 8 7/8"

#6 3/4 Envelope

3 5/8" x 6 1/2"

Peel and Seal Envelopes

Peel and Seal is a term used for adhesive which is exposed by peeling away coated release paper. Envelope flap will adhere without moisture and has an extended shelf life. Available in Regular, Window, Security Tint Regular, Security Tint Window, and Catalog (9" x 12" or 10" x 13").

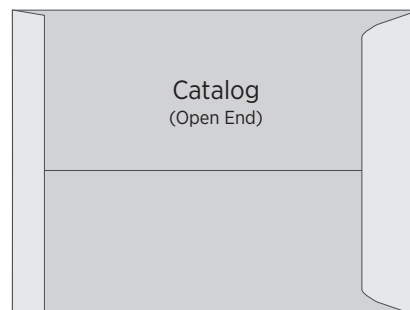

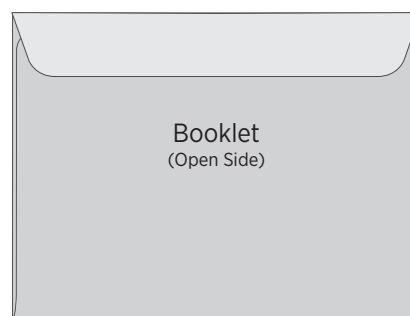

Flip and Seal Envelopes

Flip and Seal (self-seal) requires no moisture to seal. Simply raise the lower flap and press. The unique double flap design keeps the gum from sticking until you're ready to mail. Available in #10 Regular or Window. Adhesive has a limited shelf life.

Mailing Envelopes

When you need more room or want your envelope to gain attention, choose 6" x 9", 9" x 12" or 10" x 13" mailing envelopes.

Specify Catalog or Booklet style when ordering. If a style is not indicated, Catalog (open end) will be supplied.

Full Color Business Envelopes

Flip and Seal

Peel and Seal

Features:

- Three standard sizes:
 - #10 (4 $\frac{1}{8}$ " x 9 $\frac{1}{2}$ "")
 - #9 (3 $\frac{7}{8}$ " x 8 $\frac{7}{8}$ "")
 - #6 $\frac{3}{4}$ (3 $\frac{5}{8}$ " x 6 $\frac{1}{2}$ "")
- Specify size when ordering
- Full color flat print only
- Bleeds are not available
- All envelope stocks are guaranteed to run on laser printers, inkjet printers, and copiers

Security tint pattern may vary.

Contact us for single or multilevel brass dies, if your image area exceeds 12 square inches or appears in more than one position. Contact us for registration between ink and foil embossing.

Back Copy: Apply the back copy charge only to flat announcements. There is no charge for back copy on folded announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If no back copy color is specified, black ink will be supplied. If back copy is a different color than front copy, add an additional \$15.45 for any standard and \$77.30 for PMS inks. Additional charges for registration between two ink colors; see page 41.

Inside Copy: Apply the inside copy charge only to folded announcements. Inside copy will be printed in flat print unless otherwise specified. Raised print is not available on the inside if the front and back panels are raised printed. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than the outside copy, add an additional \$15.45 for any standard and \$77.30 for an PMS inks. Additional charges for registration between two ink colors; see page 41.

Envelope Imprint: Announcement Envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap will be used.

Add Back, Inside, or Envelope Imprint	100	200	250	300	400	500	1,000

 XC1015: Sending positive thoughts and special cheer! Thinking of you always.

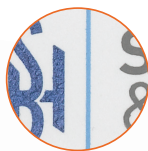

Thank You:

- XC854: JUST WANTED TO SAY "Thank You"
 XC862: We appreciate your business and look forward to serving you in the future.
 XC863: With special thanks and much appreciation.

Fine Printing

Foil Embossing | Pairing the shine of foil stamping with the texture of embossing, foil embossing brings your design to new heights.

Spot Color with Foil Stamping | Foil stamping uses heat and pressure to add the elegance and shine of foil to your spot color print pieces.

Blind Embossing | Blind embossing presses a raised design into your stock for a subtle and stylish look.

Engraving | Engraved plates are handcrafted using acid etching on copper to create a die. Ink is then rolled over the die, and the die is wiped down so that the only ink that remains fills the etched areas. The ink is then applied to the final stock using pressure to create a crisp, clear image.

Engraving | With subtle elegance and the highest degree of professionalism, engraving is a classic process that allows for precision and fine detail.

Fine Printing

Fine printing options are perfect for professionals with an appreciation for the finer things in print. From the subtle raised texture and detailed look of engraving to the vibrant pairing of full color print and foil stamping, these timeless print processes are sure to make your print products and your business stand out from the crowd.

We would be proud to craft the print that sets you apart from the rest. Call us to discuss your custom fine printing order.

GENERAL INFORMATION: Business Cards & Stationery

Imprint Processes

Full Color Process - Flat and Raised

Full color process printing combines four basic colors—cyan, magenta, yellow, and black—to create multiple colors and a lasting impression. Full color raised printing adds texture and dimension.

Standard and PMS Inks

Standard inks are ink colors that are most commonly used. Samples of standard inks can be found in the Stationery Swatch Book. Standard ink colors include: Black, Brown, Burgundy, Dark Blue, Green, Gray, Light Blue, Red, Reflex Blue, and Teal.

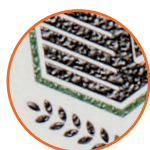

PMS inks are any specific ink numbers requested from the PANTONE MATCHING SYSTEM®, Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials. Use the standard and PMS ink category on the price grid for the paper you've selected when ordering these ink colors.

Flat Printing

Flat printing, also called lithography, is a printing process in which the image area is neither raised nor depressed.

Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

Raised Printing

Sometimes known as thermography, raised printing is a process in which a special powder is applied to the ink after the ink has been applied to the paper. The paper is then run through a heat source which causes the ink to "rise." All orders will print with raised ink unless another process is specified or the product is listed otherwise.

Perma Raised® Thermography

All letterhead and envelopes are printed with Perma Raised® thermography unless otherwise indicated. Perma Raised® is a special heat-resistant thermography process designed to withstand the high temperatures of laser printers without melting, smearing, or distorting color. All letterhead and envelope stock printed in Perma Raised® thermography are guaranteed to run on laser printers, inkjet printers, and copiers.

Foil Stamping

Foil stamping, also known as hot stamping, is a process that uses heat and pressure along with metallic foil material to stamp a design or text onto paper. The look of the finished product is similar to ink but is generally very shiny in appearance. This process is done using a metallic die and is one dimensional (flat). When ordering, use the foil stamping or ink with foil stamping upcharge on the price grids for the paper you've selected.

Foil Embossing

Foil embossing, also referred to as hot leaf embossing, is a combination of both the embossing and foil stamping process. This can be done in two steps (as illustrated in the individual definitions of "embossing" and "foil stamping") or in one step using a foil emboss, or "hot leaf emboss," die. A foil embossing die can be single or multilevel. This process requires both heat and pressure to push the design through the back of the paper into the foil and die at the same time. The resulting effect is a raised metallic image on the front of the paper.

Blind Embossing

Embossing is an ink free process in which a design or text is pushed into the back of the paper using pressure. This is typically done using a metallic die and a counter die. The counter die forces the paper into the shape of the die from the back side of the paper. The resulting appearance of the front of the paper is a raised representation of the intended design. This design can either be single level (one dimensional raised design) or multiple level (three-dimensional design created with a brass die). This process can also be done with ink or foil and can, in some instances, be in register with these processes; contact us for registration between embossing and other specialty print processes.

Blind Debossing

Debossing is an ink free process similar to embossing. However, instead of pressing a design from the back of the stock to create a raised image, debossing presses the design into the stock to create an image depressed into the stock. This process can also be done with ink or foil and can, in some instances, be in register with these processes; contact us for registration between embossing and other specialty print processes. Contact us for single or multilevel brass dies or debossing in combination with any other specialty print processes.

Engraving

Engraving is a process that resembles embossing in nature and uses pressure and ink. A die with an image or text etched into it is coated with ink. The excess ink around the non-imaging area of the die is wiped clean. The remaining ink resides only in the printable area of the die. This image is then pressed into the front of the paper. The resulting appearance is a slightly raised ink. Contact us for engraving.

For more information about these processes, please contact us.

GENERAL INFORMATION: Business Cards & Stationery

General Ordering Information

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges. NOTE: Add two production days for typesetting and design to the production time of the product.

Back Copy

Announcements: Apply the back copy charge only to flat card announcements. There is no charge for back copy on folded announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If back copy is a different color than front copy, add an additional \$15.45 for any standard and \$77.30 for PMS inks. Additional charges for registration between two ink colors; see "Registration" for pricing.

	100	200	300	400	500	1,000	Add'l 100
1 Ink	\$56.80	\$61.80	\$66.35	\$70.50	\$74.45	\$93.90	\$3.85
2 Inks	\$101.25	\$112.45	\$121.50	\$127.00	\$132.05	\$155.65	\$3.85
1 Std. Foil*	\$163.00	\$163.00	\$163.00	\$163.00	\$163.00	\$172.40	\$8.25

(R) Production time: 1 additional working day for back copy. *1 Standard Foil pricing includes recycled die for the first 12 square inch image area. Dies are not returned. Please contact us if your image area exceeds 12 square inches. Contact us for registration between ink and foil.

Business Cards: Copy printed on the backside of a business card will be flat printed. Raised print is not available.

	500	1,000	Add'l 500
1 Ink	\$38.25	\$39.80	\$14.55
2 Inks	\$51.25	\$52.80	\$14.55

(R) Production time: 1 additional working day for back copy. If back copy ink color is different than front copy, contact us for details.

Inside Copy

Apply the inside copy charge only to folded announcements. Inside copy will be printed in flat ink unless otherwise specified. Thermography is not available on the inside if the front and back panels are printed in thermography. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than outside copy, add an additional \$15.45 for any standard and \$77.30 for PMS inks. Additional charges for registration between two ink colors. See "Registration" for pricing.

	100	200	300	400	500	1,000	Add'l 100
1 Ink	\$56.80	\$61.80	\$66.35	\$70.50	\$74.45	\$93.90	\$3.85
2 Inks	\$101.25	\$112.45	\$121.50	\$127.00	\$132.05	\$155.65	\$3.85

(R) Production Time: 1 additional working day.

Blank A-Style (Square Flap) Lined Envelopes

Standard Vellum announcement pricing includes blank A-Style (square flap) envelopes. See pricing pages for printed envelopes or below for A-Style lined envelopes:

- A7 White Square Flap Gold Lined Envelopes - ANE-C4-AEV15-NAV7
 - A7 White Square Flap Silver Lined Envelopes - ANE-C4-AEV16-NAV7
- (A7 Envelopes accommodate 7 Baronial Announcements)

Add prices below to the base Announcement price.

	100	200	300	400	500	1,000	Add'l 100
Lined Envelope upcharge	\$10.25	\$20.45	\$30.65	\$40.95	\$51.15	\$102.25	\$10.20

(R)

Envelope Printing

When ordering envelopes, specify position of copy on envelope corner or flap. If no position is specified, upper left corner printing will be supplied. If the envelope is printed on the front and the flap, add the charge below to the base price. Envelope flap will be flat printed.

Stationery Envelopes	500	1,000	Add'l 500
1 Ink	\$85.20	\$124.40	\$24.65
2 Inks	\$147.05	\$186.25	\$24.65

(R)

Business Envelopes	500	1,000	Add'l 500
1 Ink	\$63.15	\$63.75	\$20.55

(R) Production time: 1 additional working day for back copy. *Standard Foil pricing includes recycled die for the first 12 square inch image area. Dies are not returned. Contact us if your image area exceeds 12 square inches. Contact us for registration between ink and foil.

If flap copy is a different color than front copy, add an additional \$15.45 for any standard and \$77.30 for PMS ink. When an envelope is engraved, embossed or foil embossed, the impression will show through on the back of the envelope. If you do not want the impression to show through, we can open the flap, engrave or emboss your copy and close the flap. This must also be done if you want any of these processes on the envelope flap. Add \$34.70 per 1,000.

Announcement envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap imprint will be supplied.

Announcement Envelopes	100	200	300	400	500	1,000	Add'l 100
1 Ink	\$56.80	\$61.80	\$66.35	\$70.50	\$74.45	\$93.90	\$3.85
2 Inks	\$101.25	\$112.45	\$121.50	\$127.00	\$132.05	\$155.65	\$3.85

(R) Production Time: 1 additional working day.

Folding for Announcements

Announcements are scored and shipped flat. We will fold announcements for \$14.70 (R) per 1,000 minimum.

Phantom Watermark for Letterhead

A flat printed 5% screen of your logo printed in the center of your letterhead to simulate a paper watermark.

	500	1,000	Add'l 500
Phantom Watermark	\$85.20	\$124.40	\$24.65

(R) Production Time: 1 additional working day for phantom watermarks.

Round Corners for Business Cards

	50-250	500	1,000	2,000	2,500	5,000	10,000
Round Corners	\$7.10	\$14.25	\$16.30	\$32.60	\$40.75	\$81.50	\$163.00

(R) Rounded corners have 1/4" radius. If another radius size is wanted, contact us for details.

Bleeds

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed 1/8" beyond the paper size, on each side.

Spot Color Business Cards, Letterhead, Envelopes & Announcements

	500	1,000	Add'l 500
Standard & PMS Inks	\$9.75	\$9.75	\$3.25

(R) Prices shown are per edge.

Request a quote for bleeds:

- if more than 2 edges bleed
- if bleed area exceeds 1/8" in thickness
- if letterhead bleeds top and bottom

GENERAL INFORMATION: Business Cards & Stationery

Margin Requirements

Business Cards: 1/8" margin on each side.

Envelopes: allow 1/4" from the top and side.

Letterhead: 3/8" at the top and 1/4" from the sides and bottom.

Full Color Non-panel Announcements: 1/4" margin on each side.

Spot Color Non-panel Announcements: 3/8" margin on each side.

Spot Color Panel Announcements:

- 4 Baronial: 1/2" Panel Edge, 3/4" Panel Margins
- 5 1/2 Baronial: 1/2" Panel Edge, 3/4" Panel Margins
- 6 Baronial: 5/8" Panel Edge, 7/8" Panel Margins
- 7 Baronial: 5/8" Panel Edge, 7/8" Panel Margins

Master Business Card Program

Maintain your corporate image and save money and time. We print your "Master", consisting of your company name and standard company information. We hold the printed Masters and imprint with individual names and information as needed. The minimum quantity for Master Business Cards runs is as low as 10,000. Personalized imprints can be ordered in quantities of 250, 500, or 1,000. Contact us for details.

Multiple Lot Business Cards (Volume Discount)

Multiple lot discounts are available with text changes or omissions. Changes in registration, logos, bleeds, ink, stock, etc. will be priced as separate orders. Contact us for details.

Oversized and Undersized Business Cards

Standard Business Cards measure 3 1/2" x 2". Special card sizes measuring 1" x 2 1/2" up to 2 1/2" x 4" are available. Apply the following charges to the base price:

	500	1,000	Add'l 500
Oversized/Undersized Business Cards	\$35.20	\$35.20	\$11.85

(R) Request a quote for Business Cards larger than 4" x 4". Allow one additional production day.

Registration

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and foil stamping
- Ink and foil embossing
- Ink and blind embossing
- Ink and die cutting
- Flat and thermography
- Engraving or letterpress and any other process

	500	1,000	Add'l 500
Registration between 2 inks	\$19.90	\$19.90	FREE
Registration between 2 foils	\$39.80	\$39.80	\$6.75

(R)

Special Foil Charge

\$46.40 **(R)** per item

Allow additional production time for special foils; please contact us for details. Holographic foils are available for an additional charge; contact us for details. See standard foil colors on page 38.

Die Charges

Single level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing, and ink with foil embossing up to a designated per-square-inch imprint area as follows:

Business Cards: 7 square inches

Letterhead: 8 square inches

Envelopes: 4 square inches

Announcements: 12 square inches

Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process.

Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote.

Engraving

For engraving, contact us for details.

Special Order Stock

For special order stocks, contact us for details. Allow additional time for special order stocks.

Customer Supplied Stock

Check for correct stock size prior to placing your stock supplied order. Business Card stock must be supplied minimum size of 8 1/2" x 11". Supply a minimum of 10% overage per press run. All supplied stock should be sent freight paid. See "Customer Supplied Stock" pricing on the appropriate product pricing page.

Tab and Non-Tab File Cards

For tab and non-tab file cards, contact us.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typestyles

View a variety of typestyle choices for creating a unique custom image on page 38. Typestyles are also available on the "Help and Resources" tab on our website.

Logos

When your customer is looking for a simple design solution, help them enhance their stationery with our stock logos. View stock logos on the "Help & Resources" tab online.

Photos

Photos are not recommended in thermography or raised print. On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Proofs are available for \$15.00 **(R)** each. For proofs that require typesetting and design, see "Art Charges" on page 40. This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 178 for more information.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

GENERAL INFORMATION: Business Cards & Stationery

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts.

Margin Requirements:

Spot Color printing:

1. Business cards must be sent 1-up with at least $\frac{1}{8}$ " (.125") margin.
2. Envelopes must allow $\frac{1}{4}$ " (.25") from the top and side.
3. Letterhead must have at least $\frac{3}{8}$ " (.375") at the top and $\frac{1}{4}$ " (.25") along all sides and bottom.

Full Color Process printing:

1. Business cards should have at least $\frac{1}{8}$ " (.125") margins.
2. Postcards need at least $\frac{1}{4}$ " (.25") margins.
3. Sales sheets, flyers and brochures require at least $\frac{1}{4}$ " (.25") margin for the text or other image that doesn't bleed on all sides. If a bleed is wanted, the text still needs to be $\frac{1}{4}$ " (.25") away from the edge.

Bleed Requirements:

1. $\frac{1}{8}$ " (.125") should be allowed on all sides. Please make sure the text still maintains the required margin even when graphics bleed.
2. Bleeds are not available on full color raised letterhead and all envelopes without a quote.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Printing Black vs. Black:

To ensure the best possible results, many print products should use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black. Use printing black for:

- Any raised print products; this ensures an optimal raised appearance
- Flat or raised print orders which include black in registration with other colors, heavy ink coverage, or lines thicker than 2 points

Full Color Raised/Thermography Printing

Light skin tones, light colors, and low screen percentages will have a negative impact on the raised appearance of your product. For best raised printing results, we recommend that the Total Area Coverage be at 150% or higher. Total Area Coverage (TAC) is the total of the CMYK value of a color. For example, a card using a light blue color with a CMYK mix of 89, 10, 0, 0 has a TAC of 99%. This color will not work well with thermography because there is not enough ink coverage to hold thermography powder.

Spot Color Printing

Spot orders should be colored using the correct spot color swatch. You can create your own spot swatch or you can download and install our Swatch Library from our website. For PANTONE MATCHING SYSTEM® colors, it is best to use the PANTONE solid uncoated library that is already loaded within the program.

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality. Black & White Bitmap Image Mode should be used unless screens are present, Grayscale Image Mode should be used if screens are present.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through the process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing.....	Conversion (CRUCIAL for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink.....	Black & PANTONE® Spot Color Swatch*
2 PMS Inks.....	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Custom Options and Capabilities

Custom Sizes

Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces, and other specialty uses.

Numbering

Perfect for raffles, keeping track of promotion quantity, and more, we offer consecutive numbering for virtually any need.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

Shrink wrap orders in specific quantities for easy distribution.

Special Order Announcement Envelopes

Add personalization to your announcements with A-Style envelopes, including lined envelopes.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog; contact us for more information. All Presentation Folder stocks are available for business card orders, too!

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality. Contact us for details.

GENERAL INFORMATION: Marketing Materials

Imprint Processes

Full Color Process

Four color process printing combines four basic colors—cyan, magenta, yellow, and black—to create multiple colors and a lasting impression.

Flat Printing

Flat printing, also called lithography, is a printing process in which the image area is neither raised nor depressed. Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

General Ordering Information

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges. NOTE: Add two production days for typesetting and design to the production time of the product.

Bleeds

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed $\frac{1}{8}$ " beyond the paper size.

Customer Supplied Stock

Check for correct stock size prior to placing your stock supplied order. Supply a minimum of 10% overage per press run. All supplied stock should be sent freight paid. See "Customer Supplied Stock" pricing on the appropriate product pricing page.

Photos

On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Proofs are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges" above. This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Special Order Stock

For special order stocks, contact us for details. Allow additional time for special order stocks.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typestyles

View a variety of typestyle choices for creating a unique custom image on page 55. Typestyles are also available on the "Help and Resources" tab on our website.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 178 for more information.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts.

Bleed Requirements:

$\frac{1}{8}$ " (.125") should be allowed on all sides. Please make sure the text still maintains the required margin even when graphics bleed.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Custom Options and Capabilities

Custom Sizes

From special sized business cards to oversized postcards, we can do it all. Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces, and other specialty uses.

Numbering

Perfect for raffles, keeping track of promotion quantity, and more, we offer consecutive numbering for virtually any need.

Padding

Bring together loose sheets in a perfectly personalized memo pad.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

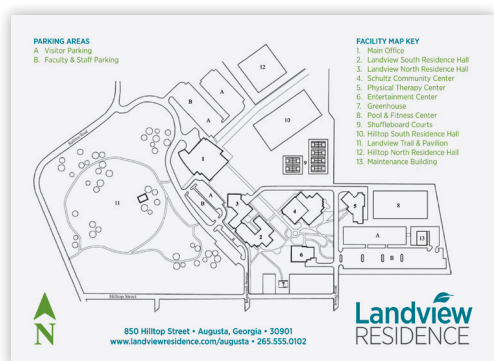

Shrink wrap orders in specific quantities for easy distribution.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog. Contact us for more details.

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality. Contact us for details.

General Ordering Information

Bleed Requirements

Artwork should extend 1/16" (.0625) beyond paper size on all sides. No additional charge where available.

Long Run Post-it® Notes

Artwork should extend 1/8" (.125) beyond paper size on all sides. A bleed on the long run pads reduces the actual pad size by 1/8" for each bleed edge.

Post-it® Notes Cubes (side printing only)

Artwork should extend 1/4" (.25) beyond paper size on all sides.

Cancellation Charge

Cancellations will require a payment of \$55.00 (X) plus any accrued charges (artwork, proofs, materials, etc.) on pad quantities of 500 or more and cube quantities of 250 or more.

Ink Coverage

Heavy ink coverage is not recommended on the top 1" of the pad because of the adhesive edge. When 50% or more of the sheet is printed with a screen greater than 40%, a "heavy ink" upcharge of 15% will be added.

Proofs

Black and white proofs are available for \$15.00 (R) each. Add 2 working days to production time when requesting a proof.

Recycled Paper

Recycled paper meets federal requirements for recycled content and contains 30% post-consumer content. This option is available in large run quantities only.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Screens

Screens of more than 20% are not recommended in the writing area. Pre-screened artwork is not recommended.

All Post-it® Notes are recyclable. Please recycle.

Spot Gloss Finish

The Spot Gloss Finish is a clear coating that you can put over any area in your design. All you need to do is take your art file and use PMS 100 to represent the areas where the spot gloss will be applied. So you will have one layer with the complete full color design and one layer with just the elements you want to have a spot gloss finish. We recommend using a minimum line weight of 3pt and a minimum text size of 6pt.

Press file example with a spot gloss layer

Variable Data

Short Run Post-it® Notes Variable Data

Available on Full Color Post-it® Note quantities of 320 or less. No additional production time is required.

Variable Text — \$31.25 (V)

Variable text is when text on the Post-it® Note pad changes from pad to pad or sheet to sheet. There is no limit to the number of characters or lines of text that can change per pad/sheet with this charge.

Contact Us For More Information:

- **Variable image:** an image or artwork changes on the Post-it® Note pad from pad to pad or sheet to sheet, please contact us for more information.
- A combination of Variable Text and Variable image.

GENERAL INFORMATION: Post-it® Notes

Short Run Formatted Post-it® Typestyle Options

Typestyles shown on this page are for Post-it® Notes. Each typestyle is identified with a two- to four-digit code, followed by either an “R” or a “C”. The ones ending in an “R” are regular upper/lower case typestyles; the ones ending in a “C” are all caps typestyles.

General Ordering Information

Proofs

Black and white proofs are available for \$15.00 **(R)** each. Add 2 days to production time.

Special Services

If your files require special attention to change or correct, and we are able to make the necessary changes with a quick fix, we will do so for a \$15.00 NET charge. Anything more involved than a quick fix will require additional charges. You will not be contacted unless the charge to fix your file exceeds \$15.00 NET.

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Artwork

You will need to provide clean, black and white or full color artwork scaled to fit the impression area. Black and white artwork should be sent without screens or shading. Black and white bitmap images should be submitted at 600 dpi. CMYK and grayscale images should be submitted at 300 dpi. All artwork should be sized at 100%.

All placed graphics and images need to be high quality and colored according to our guidelines for the product ordered. All supporting graphic files used within your layout must be sent along with the layout file, placed at 100%.

Do not send faxed art or photocopies. Laser copies must be a minimum of 600 dpi.

Screens: We do not recommend using screened colors on any artwork for promotional products.

Fonts

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outlines on your fonts.

Graphic Requirements

We accept electronic art created in the following applications: Adobe® Illustrator®, Adobe® Photoshop®, Adobe® InDesign®, CorelDRAW®, and QuarkXpress®.

Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.

Compressed files can be sent in the following formats: .sit, .sea, and .zip.

Color Requirements

We now have an "Accurate Color" System. You can now send your files colored using the intended PMS color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

Please submit black and white bitmap images at 600 dpi and grayscale images at 300 dpi for standard spot printing.

Imprint Colors: Colors on paper may print differently on other substrates. The imprint colors are intended as a guide only, not an exact representation. PANTONE MATCHING SYSTEM® is not available.

Full-Color Process Printing

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

CAN WE LEAVE A MESSAGE REGARDING YOUR MEDICAL CARE & TEST RESULTS? ☐ YES ☐ NO

I have read and agree to Landview Healthcare's payment policy. I understand that payment to my responsibility regardless of insurance coverage. I hereby authorize Landview Healthcare to furnish insured's insurance company all information (including W-2, usually transmitted disease, drug/alcohol abuse, mental illness, or drug/alcohol treatment) which may be requested concerning my illness or injury. I also authorize the release of information regarding work related injuries to my employer. I hereby agree to Landview Healthcare all money to which I am entitled for medical expenses related to the services performed from time to time by Landview Healthcare, but not to exceed my out-of-pocket maximum. Any money received from such insurance company over and above such out-of-pocket maximum will be refunded to me when my bill is paid in full. I understand that failure to pay outstanding balances within 90 days of notification of the amount due will result in submission to an outside billing service. If my account is sent to an outside billing service there will be a value fee up to \$20.00 and finance charges (1% per month/12% APR). Note: Medicare patients will not be charged the set up fee or finance charges.

MEDICARE BENEFICIARIES: As a Medicare patient, I understand that interest will not be imposed on any outstanding balance. I request that payment of authorized Medicare benefits be made to Landview Healthcare. I authorize any holder of medical information about me to release to HCA and its agents any information needed to determine these benefits or the benefits payable for related services.

THE ELITE GROUP
PROPERTY MANAGEMENT

SECURITY DEPOSIT RECEIPT

Date ____/____/____

Dear _____

Massachusetts law requires that a tenant be given a receipt with information concerning the status of the security deposit. It requires that landlords pay interest on the security deposit.

The law also requires that landlords hold the security deposit in a separate, interest bearing account in a Massachusetts bank. If a tenant lives in a rental unit for at least one year, the tenant is entitled to either 5% (subject to change) interest or whatever lesser amount is received from the bank where the deposit has been held.

Your security deposit in the amount of \$ _____ (dollars)
has been deposited in _____ (bank)
located at _____ (address)
The account number is: _____

Sincerely,

Landlord

Provide this completed receipt within 30 days of receiving your deposit.

800.555.0178 • theelitegroup.com • 403 S. Main Street, Ste. 801 • Boston, MA 02129

Stay Organized | Consecutive numbering makes it easy to keep track of order numbers and more.

GENERAL INFORMATION: Checks & Forms

General Ordering Information

Artwork

Provide clean, flat, black and white, camera ready artwork scaled to fit the imprint area.

Provide color separated and prescreened artwork for two-colored forms or forms with screens.

Booking

Sets of snap set forms bound together. Our custom books are bound together with staples and most often a wraparound cover. The cover is 80# white vellum stock which doubles as a divider to separate the form being used from the unused forms.

Logos

View our stock logo selection on the Help and Resources tab online. Custom logo artwork should be provided in solid black. Prescreened artwork does not reproduce well. Logos will be placed in the upper left hand corner of the designated imprint area unless indicated otherwise.

Proofs

Black & white proofs are available for \$15.00 (R) each. Add 2 additional working days to production time when requesting a proof.

Snap Sets

Also known as snap-outs, snap apart or unit sets. Snap sets are multipart forms that have a perforated tear off stub on one edge.

Special Set-up:

A special set-up charge of \$37.10 (R) will be added to the order when adding copy that is requested outside of the designated printing area on the preprinted forms. A previous sample or sketch of additional copy placement should be provided with the order.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Typestyles

All Booklets and Snap Set forms are typeset in: Optima with the exceptions of: Receipt Books RBB2 and RBB3, Road Service Book, Sales Books G2SB and G3SB, and Snap Set Forms F6NC are typeset in Helvetica Neue LT Standard Bold, upper and lower case.

Register Forms are type set in: Goudy. The main line (line 1) of copy will be typeset in 12 point upper case characters. The remaining copy (lines 2-4) will be typeset in 10 point upper- and lower-case characters.

Laser, Three-to-a-Page Checks and Deposit Slips are typeset in:

Company Name: Helvetica Bold, 10 point upper case characters

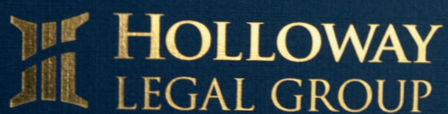

Company Address: Helvetica Regular, 8 point upper case characters

Financial Name: Helvetica Bold, 8 point upper case characters

Financial Address: Helvetica Regular, 7 point upper case characters

Routing/Account Numbers: Magnetic Character Recognition (MICR) Standard 7 point.

Voucher Checks and Envelopes are typeset in: Helvetica Neue LT Standard Bold, upper and lower case.

(R) Price shown is per piece. Production time: 3 working days. Add 2 days for heavy ink coverage on spot colors. 12 p.m. CT cutoff for artwork. *Price includes one standard foil color or single level emboss with up to 36 total square inches of coverage. See separate price grids on page 127 for pricing on imprint and stock upgrades. Thermography is not available on File Folders.

Custom & Additional Options

Custom Options: Can't Find What You're Looking For?

We have access to thousands of dies that may fit your needs. And, for an order that is truly unique, we would be happy to discuss your one-of-a-kind project and provide you with a quote. We want to talk to you!

Additional Product Options

Pocket Page

The 9" x 12" pocket page allows for quick, secure storage. The single exposed pocket is great for intercompany communication or informational pieces.

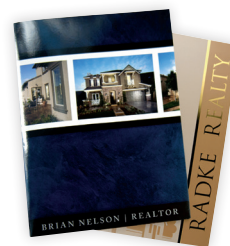

Loose Pocket Unglued Folders

Loose pocket folders are available with or without self-assemble tabs.

BamBams

These bestselling noisemakers perfect for school sports fans. They are printed in vibrant full color, and, when they are inflated and hit together, they make a booming noise that adds plenty of excitement to the big game!

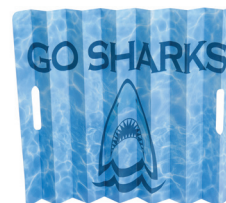

Inventory Programs

Are you working with a national or regional customer that utilizes a high volume of folders? If your customer orders more than 20,000 folders annually, ask our team if our inventory program would be a cost-effective option.

Presentation Packaging

We have many existing templates to help your small business customers package their products. Templates include snap lock boxes, straight tuck end boxes, roll tuck end boxes, sleeves, triangle boxes.

FanFans

FanFans are like a banner, noise maker and fan in one! Hold them up to show off school spirit or fold them for use as a fan or a clapper for big fan enthusiasm on game day. You can even use as a fundraiser by promoting community sponsors on the reverse side.

We realize that selling and ordering custom products can be difficult. We also understand that you might feel more comfortable consulting an expert during your order process. Whether you are discovering the quality products we offer, creating artwork for your customers, or tracking the process as your order is produced and shipped to your door, you are sure to have questions.

You deserve a supplier who can help you navigate that complex process and provide you with high quality products and competitive pricing.

We believe that no problem is too difficult to solve, and we will go the extra mile to answer your questions. Our friendly and dedicated employees have been trained in the most advanced folders processes and equipment. With that training, we can provide you with the answers and ideas you need while delivering the best products money can buy.

At the end of the day, we will provide you with the best folders experience in the industry. You can count on:

- Friendly and helpful service
- Answers to all of your questions
- Product expertise
- Quality products and kept promises

* Four Color Process can print on these indicated stocks, but we recommend printing Four Color Process on white for best results. ** Black Spot Color ONLY. *** Some Spot Colors can be printed on these stocks; please call to discuss which colors work best. If your artwork requires copy to be printed across score/fold lines (folder spine or pocket folders), we recommend changing to a 12 pt. or 100 lb. stock to minimize the potential for cracking.

GENERAL INFORMATION: Presentation Folders

Print Process Codes:

- Spot Color
- FC** Full Color Process
- UV** UV Gloss Coating
- T** Thermography
- F** Foil
- E** Emboss

Environmental Paper Codes:

- RE** Renewable Energy: This stock was manufactured using 100% renewable energy
- GSC** Green Seal Certified: Stock contains at least 30% post-consumer material.
- ✳** Recycled Material: This stock is made from recycled material.
- FSC** Forest Stewardship Council: This paper originates in a Forest Stewardship Council (FSC) certified sustainable, well-managed forest.
- CN** Carbon Neutral: This stock was made using carbon neutral processes with energy derived from natural processes that are replenished constantly.
- PCW** Post-Consumer Waste: This stock was made using a certain percentage of recycled material (post-consumer waste).

Stock Terms

Premium & Elite Stocks (Class 5)*

Premium and Elite stocks are high end stocks that will differentiate you, your company and your project from the competition. These stocks are classified as Class 5 Paper Stocks and available on any folder style unless otherwise specified. Minimum orders of 250 folders are required for all Premium and Elite stocks. *Colors shown are a close representation. Exact color may vary.

C1S Paper

Paper coated on one side.

C2S Paper

Paper coated on both sides.

Gloss Finish

Provides a lot of "shine" resulting in higher contrast. Good for full color images where color needs to "pop". However, this finish is very sensitive to dust and fingerprints.

Point (pt.)

Caliper refers to the thickness of a single sheet of paper in thousandths of an inch.

Pound (lb.)

Weight of 500 sheets in the stock's industry standard basic size (different for all paper types).

Semi-Gloss Paper

Provides a great compromise between a smooth/matte finish and a gloss finish. Helps reduce glare, dust, and fingerprint issues.

Silk

Provides very little glare. Good for enhancing designs with more subdued layouts and color sets.

Uncoated Paper

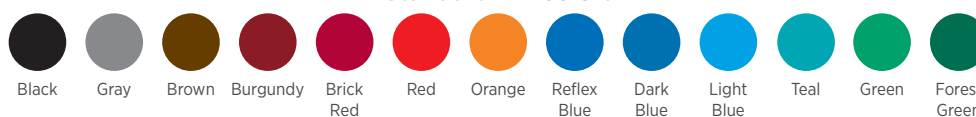

Has a flat finish and is available in many textures. Uncoated has a porous, more natural feel. Most recycled paper is uncoated. Ink will soak into fibers of the paper. As a result, inks will appear different when printed on uncoated paper versus coated.

Additional Stock Options

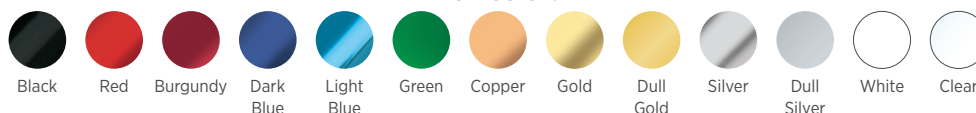

Add Charges to Base Price Per Piece	50	100	250	500	1,000	1,500	2,000	2,500	3,000	5,000

GENERAL INFORMATION: Presentation Folders

General Ordering Information

General Ordering — Standard Practices

Additional Die Set-Up

If more than two dies are used, an additional die setup charge and die charge are needed.

Art Charges

If your layout requires special attention or your artwork is unsuitable for reproduction, we will make the necessary changes. You will be notified if artwork charges apply.

Business Card Slits

- Standard business card slit options include horizontal, vertical or half moon slits centered on the pocket.
- Slits can be centered on either the right, left or both pockets for no additional charge.
- The business card slits depicted on the line art for each product style throughout the catalog will be used unless specified otherwise.
- For special slit orientation or other slit options please contact us for more information.

Horizontal

Vertical

Half Moon
Horizontal

Half Moon
Vertical

Universal
Half Moon

Coated Stocks

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds) we recommend changing to a 12 pt. stock to minimize the potential for cracking along those score/fold lines.

Die Charges

A die setup charge will be applied for an envelope slit, 4¼" custom pad slit, flash drive slits, or file card punch out. Custom die cut dies will vary in cost according to the size and amount of detail in your design. Call or send design for a price quote. Allow 5 working days. Dies will be stored at no additional cost unless otherwise requested.

Drop Ship

Additional charge applies per location.

Final Folding

Folders are shipped open. If folders need to be folded in half when they are shipped, please indicate on order blank. Additional charges may apply to unglued folders.

Inside Copy

Printing inside above pockets requires an extra charge due to the additional press run required. Contact us for more information. Additional production time is also required.

Over/Underruns

All presentation folder orders are subject to a 10% over or underrun. No charge for exact quantity. Please indicate on order blank.

Pocket Copy

When laying out copy for folder pockets, allow ¾" additional margin for reinforced edges. Printing on folder pockets is not considered inside copy.

Proofs

- Your first electronic proof is Free! PDF and color proofs are available. Color proofs may not be exact. Add 2 working days to the production time when requesting a proof. Contact us for more information.
- Epson proofs available. Contact us for more information.
- Press proofs available. Contact us for more information.

Right to Promotion & Pricing

We reserve the rights to use all products in our advertising and displays unless specified in writing at the time of order. Prices are subject to change without notice.

Rush Orders

If production schedule allows, charges for rush orders are based on time constraints and complexity of the order. Contact us for availability and pricing.

Shipping

Products ship flat unless requested otherwise.

Uncoated Stocks

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds), we recommend changing to a 100 lb. stock to minimize the potential for cracking along those score/fold lines.

Inks

Color Matching

- Industry standard ink densities are used for PANTONE® Matching System (PMS) inks.
- No extra charge for using PMS inks!
- If color matching is needed, a sample is required and must be clarified and approved before production begins.
- Colored stocks may alter the appearance of the chosen ink color(s). Exact match is not guaranteed.

Heavy Ink Coverage

- Any solid or screened areas exceeding 15% of the front or back cover (4" X 4" area) must be flat printed.
- Any solid areas of spot color exceeding 50% of the front or back cover will require the heavy ink coverage add on price. Additional production time will apply.

Screens

A screen is a dot pattern of a solid ink color that makes that color look lighter. For example, when red ink is screened it looks pink. There is no additional charge for screens. Standard screen percentage is 20%, which will be used unless otherwise indicated. We use a line screen of 120.

Special Ink

Special inks are available per color by selecting from the PANTONE® Color Formula Guide. Requesting an exact match from a color swatch or sample may require an additional color match charge.

Standard Inks

All standard and PMS inks are translucent. There is no additional charge for PMS inks. We do not recommend printing ink on dark colored stocks due to the ink discoloring. A no-charge reprint is not available when printing inks on dark colored stocks.

Thermography

No additional charge for folders printed in thermography. Legal folders, box pocket folders, tri-fold folders, file jackets, vertical pocket folders, card carriers, photo folders and sleeves, and multimedia holders cannot be printed in thermography. Thermography printing is only available on products and paper stocks indicated by the thermography icon. Large imprint areas are not recommended. Thermography cannot be in register with other processes. Thermography is not available with foil or embossing.

Foil Stamping or Blind Embossing

Die Types

Various types of dies are available.

Magnesium dies: These single level dies are used for foil stamping. They will be recycled after use.

Copper dies: These single level dies are used for foil stamping and blind embossing. Copper dies provide crisp quality without the expense of a brass die. Copper dies are recycled after use.

Brass dies: These single or multi-level sculpted dies are used for blind embossing or foil embossing. These dies produce a deep, crisp image with well-defined edges. **NOTE:** fine lines and type do not foil emboss well. Fax, mail, or e-mail artwork for a quote.

Foil Stamping or Blind Embossing (Continued)

Foil and Embossing Dies

This is a process that combines foil stamping and embossing into one press run. A brass die is required for this process. Send artwork for a quote.

Foil Stamping or Blind Embossing Charges

For orders with foil stamping or blind embossing up to 36 square inches within two areas, there is no additional charge for the dies. For orders not within these restrictions or special foil colors, call or send artwork for a quote. Charges for dies vary according to the size and amount of detail in your design. We will notify you of any additional costs before processing your order. Send actual sized artwork or a sample for an estimated die charge.

Coatings

Laminating

Contact us for pricing and availability. Allow an additional 5 working days.

UV Coating

Ultraviolet (UV) coatings provide added durability, and UV cured coatings are thicker and more protective than varnish or aqueous coatings. The following UV coating options are available for use on our coated paper stocks identified in the table on page 125: Gloss: This coating is a glossy coating over the entire printed surface of a folder. See imprint upgrade table on page 125. Spot Gloss: This coating applies a highlighted high gloss sheen to specific targeted areas of your design. Contact us for more information.

Aqueous Coating

This is a clear, fast-drying coating used to protect printed pieces. Aqueous satin and gloss coatings are available upon request. Call for a quote.

Software

Native Applications

We accept files created in the following native applications:

- Acrobat PDF (MAC & PC)
- Adobe Photoshop (MAC & PC)
- Adobe Illustrator (MAC & PC)
- Encapsulated Postscript Files (EPS)

We DO NOT accept files created in the following native applications:

- Microsoft® PowerPoint® (MAC & PC)
- Microsoft® Excel® (MAC & PC)
- Microsoft® Word® (MAC & PC)
- Microsoft® Publisher® (MAC & PC)

Creating Your Files

Bleed Requirements

1/8" (.125") should be allowed on all sides. Make sure the text still maintains the required margin even when graphics bleed.

Color Requirements

We have a new "Accurate Color" System. You can now send your files colored using the intended PANTONE® Matching System (PMS) color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

File Requirements

Create one item sized correctly per document. Placed graphics and text should be sized at 100%.

Fonts

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow to, or put outlines on your fonts.

Four Color Process Printing

- Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). Files must be 300 dpi or higher.
- PANTONE® Matching System (PMS) spot colors and process colors are produced using different methods. Therefore, colors produced in four color process will differ from PANTONE® spot colors, sometimes significantly. Refer to a Solid to Process Color Imaging Guide for color conversions.

Margin Requirements

For spot color printing using one or more spot colors, artwork must have the position noted in the special instructions, or a sample must be attached. Four color process printing should have at least 1/8" (.125") margins.

Printing Black vs Black for Four Color Orders

Use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black when in registration with other colors, in areas with heavy ink coverage, and for bold type or lines (2.5 points or thicker). Use 100% black in all other instances. If the CMYK mixes used in your file do not match the Multicolor numbers chosen, we will use the file as is and print as a "CMYK Scan" with no guarantees.

Spot Color Printing

Submit black and white bitmap images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

Coloring Your Files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black	Black
Brick Red	Brick Red
Brown	Brown
Burgundy	Burgundy
Dark Blue	Dark Blue
Forest Green	Forest Green
Gray	Gray
Green	Green

Orange	Orange
Red	Red
Reflex Blue	Reflex Blue
Teal	Teal
Any Foil or Embossing	Conversion (CRUCIAL for die ordering)
PMS Ink	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors	Actual Color
Black & 1 PMS Ink	Black & PANTONE® Spot Color Swatch*
2 PMS Inks	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil	Black & Conversion
Black & Embossing	Black & Conversion

NOTE: Files will be used as is if not indicated on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

GENERAL INFORMATION: Presentation Folders

Vertical Market Uses for Presentation Folders and Custom Products

Looking for more ideas and inspiration? Our professional sales staff are ready and waiting to discuss potential marketing ideas with you!

Automotive Industry

Auto dealerships, repair shops, insurance processing, and title and lending services can add polish to paperwork with document folders. They can also create informative packets with personalized portfolios or stitched inserts. Personalized portfolios or stitched inserts.

Construction and Contractors

Whether designing, building, landscaping, or installing necessary services, workers in construction and contracting can stay organized with personalized folders. Use file folders for office organization, literature folders to show off service possibilities, and more.

Education and Academic Institutions

For elementary schools to high schools, colleges and universities to foundations that support education, folders are a great way to add style and school spirit. Standard and oversized folders make excellent welcome packets, and file folders are ideal for keeping offices in order. When it comes time for graduation, certificate holders are a great addition.

Finance and Banking Institutions

Credit unions, loan companies, accounting firms, and community banks can instill trust in customers by creating report covers for important investment meetings, file folders for the office, and packaging for gifts given to important investors or new clients.

Government

Keep a wide variety of government offices — including parks and recreation departments, tourism offices, and election offices — looking professional. Report covers add flair to meetings, while standard folders and file folders can create stylish information packets or keep offices organized.

Healthcare and Medical Institutions

Charity organizations, clinics and hospitals, pharmaceutical companies, pediatricians, a birth centers, recovery centers, dentists, and medical device companies alike can benefit from being organized and polished. Consider multimedia holders for giving customers in-depth information, file folders to house patient information, or card holders to keep physician information and appointment schedules together and organized.

Hospitality

Hotels, convention centers, visitor centers, and banquet halls can use standard folders to create visitor packets, card carriers to hold room keys, and tri-fold folders to create unique packets for event planning.

Legal

Create practical folders for court halls and legal firms with legal folders. Expandable folders are ideal for larger documents, while file folders help keep busy offices organized.

Non-Profit Organizations

Charities, foundations, and endowments can reach out to donors and volunteers alike with literature folders for information packets, certificate holders for volunteer recognition, and packaging perfect for “thank you” gifts.

Real Estate and Development

Build the businesses of realtors, land developers, architects, city planners, and apartment complexes with legal folders for essential paperwork, portfolios for information packets that add flair to meetings, and promotional packaging to keep business names in the public eye.

HOW TO ORDER 24-HOUR FASTURN® LABELS

1. Select your shape and size

Choose from hundreds of stock shapes and sizes

2. Indicate your ink color(s)

- Standard Inks-Price includes one ink; PMS inks \$50.00 (V) each

Additional ink(s) charge on price grids

For clear stocks, white back-up is recommended; add additional ink charge

- Process Color

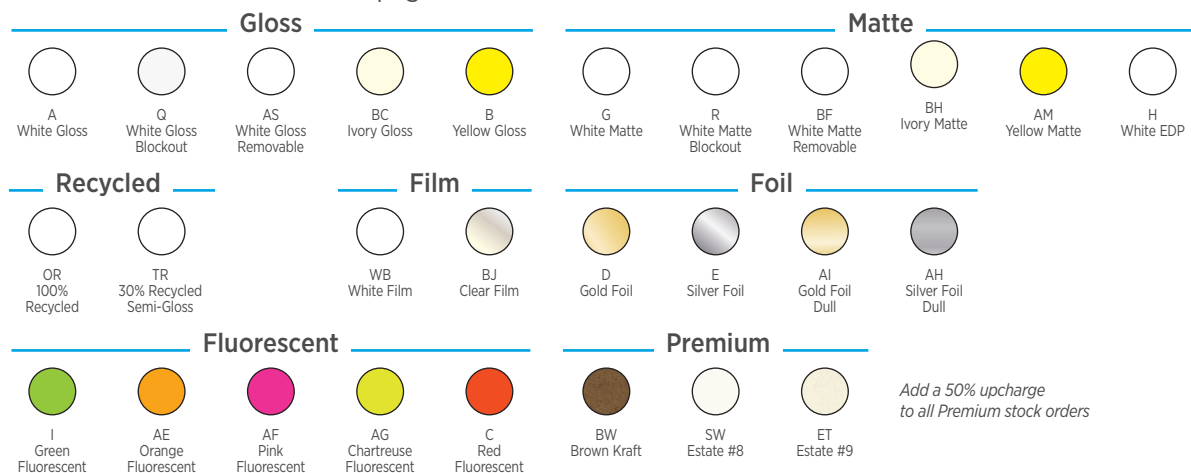

- 24-Hour FasTurn® Foil Stamping and/or Embossing please see page 138

3. Choose your stock

- 24-Hour FasTurn® Most Popular pages 133, only available on

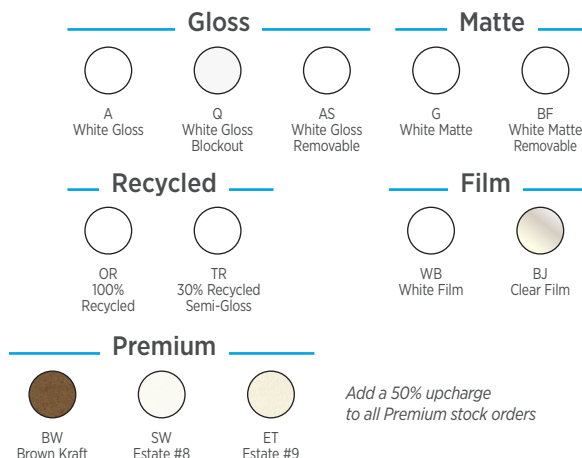

- 24-Hour FasTurn® Standard Stocks pages 134-137

Add a 50% upcharge to all Premium stock orders

- 24-Hour FasTurn® Process Color Stocks pages 134-137

Add a 50% upcharge to all Premium stock orders

Helpful Information:

- Inks and stocks shown are close representations only, ask us for a sample
- Ink density/color will vary depending on your label stock
- Black ink only is recommended for fluorescent stock
- Choose an ink color to floodcoat your stock to change the look
- Metallic Inks available, priced as a PMS Ink
- Other stocks available, ask us for more information and pricing

24-Hour FasTurn® Labels – Most Popular

Helpful Information:

How'd We Get That Price So Low?

- Available on our most versatile stock, white gloss
- Most popular printing, Process Color creating photographic quality
- **FREE** high gloss UV included
- 24-hour production time
- Over 20 of the most requested shapes and sizes to choose from
- Provided on rolls

Premium Foil Stamp Stocks: add 50% upcharge to base price for ALL quantities

Due to the thickness of the stock and liner, premium stocks are only recommended for Foil Stamping orders.

(P) Production time: 1 working day. Provide print-ready file (EPS, PDF) sized to chosen label. To ensure 24-hour production, please submit print-ready artwork by 2 p.m. CT to ship the following day.

Helpful Information:

- For ink choices, see page 132
- Water bottles not included
- White Film stock is recommended if you plan to place in ice
- Labels provided on **rolls** and have square corners
- Bleeds available on all four sides
- UV varnish is suggested on White Gloss stock as a moisture barrier
- Variable data and imaging available on labels printed with Process Color. See page 178

Not Sure What Size You Need?

Depending on bottle shape and size we offer the following suggestions.

PLEASE measure your purchased water bottles for the closest listed label size.

Bottle Size	Suggested Die	Label Size
16.9 oz.	1394	1¾" x 8¼"
8 oz. / 12 oz. / 16.9 oz.	1395	2" x 8"
8 oz. / 16.9 oz.	1396	2½" x 8"
20 oz.	1397	2¾" x 9"

One Color FasTurn® Labels - Water Bottle

Additional ink charges at bottom of price grid.

24-Hour freeform™ Labels

Helpful Information:

freeform™ is our laser cutting technology that lets you create uniquely shaped labels without dies. With minimums starting at 100 labels and a 24-hour turn-time, freeform™ is ideal for prototyping, seasonal products, sticker sheets, new product lines, or products for start-ups!

- For ink choices, see page 132
- Provide dieline/cut path as a layer in your artwork. If not provided, art charges start at \$25 (Z) to create the path for you.
- Provide dieline/cut path as a layer in your artwork. Or ask for an art quote to create the path for you.
- Labels provided on rolls. Individual labels available upon request
 - Add a \$35.00 (V) cutting charge per order
 - Minimum size is 2" x 2"
- To determine your square inch pricing category, multiply maximum width by maximum height.

Example:

1.5" x 2.25" = 3.38 sq. inches

For 250 2-color labels, the cost is \$251.00 (\$197.50 + \$53.50)

(P) Production time: 1 working day. To ensure 24-hour production, please submit print-ready artwork by 2 p.m. CT to ship the following day. Gloss lamination applied at no additional cost. Inks for Process Color are not fade-resistant.

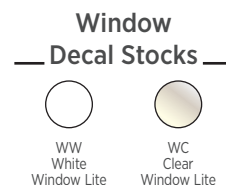

Repositionable Window Decals

Helpful Information:

- For ink choices, see page 132
- FREE white ink back-up automatically provided on Clear Window Lite stock for increased readability (see page 148 for example)
- Please indicate if decal will be read from the inside or outside of a window. Reversed copy (read from the outside) is only available on Clear Window Lite stock
- Fade resistance varies depending of ink color and/or geographic location
- Special adhesive that allows you to remove and reposition multiple times and leaves no residue when removed
- Indoor and outdoor applications
- FREE Gloss Lamination on 4-color Process, ask for pricing on 1-color orders
 - Matte Lamination is available, if requested
(Recommended if you plan to write on the label)
- Sunscreen lamination helps combat UV rays and may extend the fade resistance of some inks. See price grid for additional charge.
- Individual labels available upon request
 - Add a \$35.00 (V) cutting charge per order
 - Minimum size is 2" x 2"
- Variable data and imaging available on labels printed with 4 color process. See page 178

GENERAL INFORMATION: Labels

General Ordering Information Artwork

Print-ready artwork is defined as artwork that is provided at 100% size, requires no typesetting and has a 1/8" margin on all sides, including a bleed when needed. Exact position of text and graphics should be indicated. For copyrighted images, submit an authorization form with your order.

Changes or Cancellations

Changes to orders in progress may require additional charges and/or time. Cancellations after an order is in progress will require payment for work completed. A minimum fee of \$25.00 (V) will be charged for all cancellations or changes. If the order has already been printed, the full order value will be charged.

Consecutive Numbering

Consecutive numbering is available on most stocks and is supplied on rolls only. Consecutive numbering is not available on individual labels. Please indicate a starting number when ordering labels with consecutive numbering.

Consecutive Numbering Upcharge

100	250	500	1,000	2,000	3,000	5,000	10,000
\$92.50	\$92.50	\$92.50	\$92.50	\$99.75	\$107.00	\$121.50	\$157.75

(V)

Copy/Stock/Ink Changes

If you have copy, stock or ink changes for multiple lots or versions of labels, we may be able to group your order for better pricing. Call for pricing.

Dispenser Box

Extra boxes available for \$0.35 (V)

Drop Ship

A \$2.50 (V) charge per address will apply.

Overruns

You will not be charged for Label overruns

Pantone Match/PMS Inks

\$50.00 (V) per ink

Proofs

Stock color will not be represented on the proof.

Proofs are available electronically or by fax. Proofs must be requested when orders are submitted and are available on the same day if received by 2 pm CT. First proofs are available at no charge. Additional proofs are available for \$18.00 (V) each. Once we receive your approval of the proof(s), we will begin creating your order. If you should decide against ordering, or place your order more than 30 days after the creation of the last proof, a minimum charge of \$18.00 (V) will be applied to your order.

Screens and Registration

Screens are available with a 5%-95% tint. Registration of color-to-color is within industry standards of 1/32".

Standard Inks

All standard inks are not opaque. They may appear transparent on clear stocks and some ink colors will vary on colored stocks.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 178 for more information. Call for pricing.

Creating Your Files

Create one item sized correctly per document. Placed graphics and text should be sized at 100%. For freeform™ laser cut labels, create a layered file that includes the cut path.

Color Requirements

Spot Color Printing

Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. For freeform™ laser cut labels, create a layered file that includes the cut path.

Process Color Printing

We recommend a minimum resolution of 300 dpi for any Photoshop file or placed (raster) image for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using Process Color, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in 4 color will differ from PANTONE® spot colors, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.

Fonts

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outline on your fonts.

Margin Requirements

Labels must be set up with at least a 1/8" margin.

Bleed Requirements

1/8" should be allowed on all sides. Example: Artwork for a 2" x 3" label with bleeds on all four sides would measure 2 1/8" x 3 1/8"

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Label Adhesives

All labels featured in this catalog, with the exception of Window lite, are provided with permanent adhesive and cannot be easily removed without certain solvents.

White Gloss Removable, White Matte Removable and White Polyolefin Removable will become permanent over time. These stocks do not remove well from paper.

Label Application

For best results, labels should always be applied at room temperature to smooth, dry, clean, oil-free surfaces. Ink colors will appear transparent on clear stocks. If there is any question as to the proper application, please request free samples to test.

GENERAL INFORMATION: Labels

Glossary

Adhesive Side Printing

Adhesive side printing offers the option of printing on both sides of the label. Not available on removable stock.

Backwards Copy

Backwards copy offers a unique option for sticker placement on the inside of windows, allowing it to be used in storefront windows or in vehicles for car permits. The text or image is printed backwards, allowing the label to be applied on the inside of a window yet remain readable from the outside.

Bleed

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed $\frac{1}{8}$ " beyond the label size on all sides. Example: Artwork for a 2" x 3" label with bleeds on all four sides would measure $2\frac{1}{8}$ " x $3\frac{1}{8}$ ".

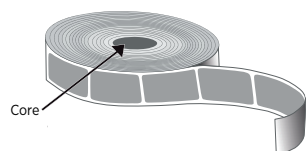

Copy Position

Also known as the unwind, copy position signifies which direction the copy comes off the roll. This is critical for machine applied labels.

Core Size

Core size refers to the cardboard cylinder that the labels are wrapped around when finished on a roll. Cores come in 1" and 3" diameters; additional sizes are available upon request.

Die Cut

Die cutting allows you to break free from the world of rectangular labels by precisely cutting shapes on the face stock.

Draw/Repeat

Refers to the dimension from the top edge of one label to the top edge of the next label, including the gap between the labels.

Flood Coat

Flood coat is the process of applying ink over the entire label to change the color of the stock prior to printing the design.

Gap

The space between two labels; $\frac{1}{8}$ " is standard.

Liner Side Printing

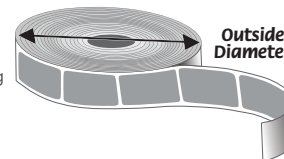

Also known as backside printing, liner side printing is printed on the liner of the label. This is often used to offer coupons, share business address and hours, or to promote upcoming events.

Matrix

The stock material surrounding a die cut label.

Outside Diameter

Refers to the measurement across the roll of labels at its widest point, including the core.

Registration

The arrangement of two or more printed images or colors in exact alignment with each other.

Reverse

In a reverse, the image is created by the stock showing through as the imprint. As an example, a white label with black ink would appear as a black label with a white imprint.

UV Varnish

A thin protective coating that is bonded and cured with ultra-violet light, providing moisture protection but not UV ray protection. Available in high gloss or matte sheens.

Lamination

A clear film that provides additional protection against moisture, chemical, oil, abrasion, or UV resistance.

Gloss Lamination provides a high gloss appearance

Matte Lamination a low glare surface enables electronic scanning and excellent acid, chemical and oil resistance. Ideal for handwriting information on labels.

Sunscreen lamination protects the label by screening out harmful UV rays. Extends the fade resistance of some inks depending on the environment and usage. Provides a high gloss appearance.

White Back-Up

Clear stock labels are a popular choice for many uses, but sometimes it needs a little help to ensure they are visible, easy to read and communicate effectively. White back-up is the process of applying white ink directly behind the artwork to make it easier to read on clear stocks.

White Floodcoat

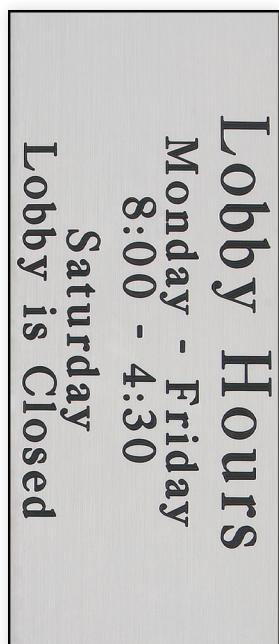

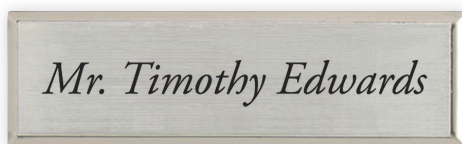

The process of applying white ink across the entire label to make it easier to read on clear stocks, giving it the look of a white label.

• Price shown is per sign

GENERAL INFORMATION: Badges & Signs

General Ordering Information

Art Charges

One hour of artwork touch up is included per order. Additional time will be billed at \$45.00 (V). You will be notified if your artwork needs more than one hour prior to work being started.

Changes or Cancellations

Changes to orders in progress may require additional charges and/or time. Cancellations for orders in progress will require payment for the order.

Color Matching

Digital full color and engraving processes cannot guarantee a PMS match.

Drop Ship

Additional \$2.50 (Z) for each location requested other than the address that is on the account.

Engraving

We use laser engraving for our engraving processes. There is no set up charge for engraved items.

Handling Fee

A handling fee of \$2.50 (Z) will be added to each order that is not submitted on our website or through other electronic processing systems.

Over/Underruns

There is no charge for exact quantity requests. You will only be billed for the quantity on your purchase order.

Production Times

Production times are stated for each item on their catalog page. Quantities over the last column pricing may require additional production time. A customer service representative will contact you within one business day to discuss production time and delivery options.

Proofs

- Virtual Proof Email: Add 2 working days to the item production when requesting a PDF proof. First proof is FREE of charge. Additional proofs are \$15.00 (R). Production time begins after receipt of complete order including proof approval
- Speculative Sample Proof for Catalog Items: Speculative sample proofs are available and production time is as stated in the catalog.
- Speculative Sample Proof for Custom Items: Speculative sample proofs for non-catalog items or custom products will be charged the price of the quoted product and an additional fee of \$25.00 (R) for each unique item produced.

Quantity Price Breaks

Prices listed at various quantity breaks assumes the same standard logo or design on the items and includes variable data personalization such as a name, phone number, or address changes.

Random Samples

Random samples are FREE of charge and shipping is NO CHARGE. We will do our best to meet requests for specific colors of imprint or vertical market imagery as available.

Rush Orders

Rush orders will be accepted as production schedule allows and must be pre-approved. Rush charges and production time are based on the complexity of the order and color match requirements. Minimum charge is \$25.00 (R).

Third Party Shipping

No additional charges apply if you provide us with a valid shipper number.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Artwork—Creating and Saving Files

Full Color Process

Digital full color products are full color CMYK process. Every element of the file must be colored with process CMYK colors. If RGB or other non-CMYK colors are used in your files the necessary conversions to CMYK will change the appearance of the colors when printed, sometimes dramatically. Create full color process item files with Adobe® Acrobat PDF files. Create one item sized correctly per document. Artwork must be at least 300 dpi. For highest quality output, 600 dpi is recommended. Requested file formats should be TIFFs, PDFs, or Illustrator Files with the fonts embedded in the file. Do not include any punctuation in the PDF file name and please keep it short as possible.

Engraving

Include typestyle, upper case, lower case or both along with the position of the engraving on the item on your order. If no logo will be utilized, providing artwork is not necessary. Artwork must be at least 300 dpi. For highest quality output, 600 dpi is recommended. Requested file formats should be TIFFs, PDFs, or Illustrator Files with the fonts embedded in the file.

Guaranteed Happy Buyer Service

If for any reason you are not satisfied with your order, our team will do whatever it takes to make it right for you. Happy Buyers Guaranteed.

Engraved Plastic Color Combinations

Engraved signs and badges are constructed from 1/16" two-ply plastic. Color combinations are available only as shown. Specify color number when ordering. If no color is indicated, L6 (black sign with white lettering) will be used. Some colors may fade if used outdoors.

GENERAL INFORMATION: Badges & Signs

Full Color and Laser Engraving Typestyles

Typestyles shown are for badges and signs. Each typestyle is identified with a two- to four-digit code. Most typestyles listed are available in both **Regular** and **Caps** style. When ordering, please identify the style wanted by placing an "R" (regular upper/lower case) or a "C" (all caps) behind the typestyle code you have chosen. Serif and Sans Serif Typestyles are shown at 8 pt.; Script Typestyles are 10 pt.

General Ordering Information

Proofs

- Virtual Proof Email: Add 2 working days to the item production when requesting a PDF proof. First proof is FREE of charge. Additional proofs are \$15.00 (R). Production time begins after receipt of complete order including proof approval
- Speculative Sample Proof for Catalog Items: Speculative sample proofs are available and production time is as stated in the catalog.
- Speculative Sample Proof for Custom Items: Speculative sample proofs for non-catalog items or custom products will be charged the price of the quoted product and an additional fee of \$25.00 (R) for each unique item produced.

Quantity

If no quantity is indicated, one stamp will be made.

Item Number

Indicate item number to designate which item will be ordered.

Special Instructions

Clearly print or type any special instructions in the space provided. Attach an additional sheet if necessary. Use this space to also indicate any special instructions or logos. Indicate all typesets used on this order. All products will be typeset using our discretion unless otherwise noted in Special Instructions. Attach a sample whenever possible.

Artwork

You will need to provide clean, black and white artwork scaled to fit the imprint area if custom design is wanted. Artwork must be at least 600 dpi. Screens are not available.

Notary Stamps

All notary stamps and embossers will be typeset per the specifications of the state. Requirements will vary state by state. Our policy is to follow the state recommended guidelines; California notary orders must include an original notary certificate of authorization. No copies are allowed. Your original certificate will be returned with your order. The remaining states must supply a copy of their certificate. The State Notary Certificate is required with each notary stamp except for Idaho, Kansas, New Mexico, South Dakota, Wisconsin, and Washington DC.

Typeset

Indicate a typeset from page 172. If a typeset is not specified, 43C (Swiss Caps) will be used. The maximum number of lines and characters for stamps are based on 8 pt. Swiss Caps. Contact customer service if information is needed on a specific product for lines and characters.

Ink/Imprint Color

If an ink color is not specified for stamps and date stamps, Black will be used. Special exceptions may be noted by certain stamps. Certain date stamps are available with two ink choices. Indicate color choices for date and copy in Special Instructions. If no ink colors are selected, defaults will be used; refer to defaults for the item. All copy is typeset to fill stamps. If you do not want the stamp to be filled, note that information in special instructions.

Signature Stamps

Submit hand written signature three times on a blank white sheet of paper with your order.

Guaranteed Happy Buyer Service

If for any reason you are not satisfied with your order, our team will do whatever it takes to make it right for you. Happy Buyers Guaranteed.

Round Stamp Formats

Format A
Stock or custom
logo ONLY.

Format B
All lines are straight.

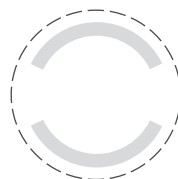

Format C

GENERAL INFORMATION: Awards & Coasters

General Ordering Information

Art Charges

One hour of artwork touch up is included per order. Additional time will be billed at \$45.00 (V). You will be notified if your artwork needs more than one hour prior to work being started.

Changes or Cancellations

Changes to orders in progress may require additional charges and/or time. Cancellations for orders in progress will require payment for the order.

Color Matching

Digital full color, sublimation full color, and engraving processes cannot guarantee a PMS match.

Drop Ship

Additional \$2.50 (Z) for each location requested other than the address that is on the account.

Engraving

We use laser engraving for our engraving processes. There is no set up charge for engraved items.

Handling Fee

A handling fee of \$2.50 (Z) will be added to each order that is not submitted on our website or through other electronic processing systems.

Over/Underruns

There is no charge for exact quantity requests. You will only be billed for the quantity on your purchase order.

Production Times

Production times are stated for each item on their catalog page. Quantities over the last column pricing may require additional production time. A customer service representative will contact you within one business day to discuss production time and delivery options.

Proofs

- Virtual Proof Email: Add 2 working days to the item production when requesting a PDF proof. First proof is FREE of charge. Additional proofs are \$15.00 (R). Production time begins after receipt of complete order including proof approval
- Speculative Sample Proof for Catalog Items: Speculative sample proofs are available and production time is as stated in the catalog.
- Speculative Sample Proof for Custom Items: Speculative sample proofs for non-catalog items or custom products will be charged the price of the quoted product and an additional fee of \$25.00 (R) for each unique item produced.

Quantity Price Breaks

Prices listed at various quantity breaks assumes the same standard logo or design on the items and includes variable data personalization such as a name, phone number or address changes.

Random Samples

Random samples are FREE of charge and shipping is NO CHARGE. We will do our best to meet requests for specific colors of imprint or vertical market imagery as available.

Rush Orders

Rush orders will be accepted as production schedule allows and must be pre-approved. Rush charges and production time are based on the complexity of the order and color match requirements. Minimum charge is \$25.00 (R).

Third Party Shipping

No additional charges apply if you provide us with a valid shipper number.

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

Artwork—Creating and Saving Files

Full Color Process

Sublimated full color process items require RGB artwork unless noted on the specific page. All other digital full color products are full color CMYK process. Every element of the file must be colored with process CMYK colors. If RGB or other non-CMYK colors are used in your files the necessary conversions to CMYK will change the appearance of the colors when printed, sometimes dramatically. Create full color process item files with Adobe® Acrobat PDF files. Create one item sized correctly per document. Artwork must be at least 300 dpi. For highest quality output, 600 dpi is recommended. Requested file formats should be TIFFs, PDFs, or Illustrator Files with the fonts embedded in the file. Do not include any punctuation in the PDF file name and please keep it short as possible.

Engraving

Include typestyle, upper case, lower case or both along with the position of the engraving on the item on your order. If no logo will be utilized, providing artwork is not necessary. Artwork must be at least 300 dpi. For highest quality output, 600 dpi is recommended. Requested file formats should be TIFFs, PDFs, or Illustrator Files with the fonts embedded in the file.

Guaranteed Happy Buyer Service

If for any reason you are not satisfied with your order, our team will do whatever it takes to make it right for you. Happy Buyers Guaranteed.

GENERAL INFORMATION: Variable Data

Variable Data Guidelines

Variable data is when text or image on the product changes from sheet to sheet. This can include text, images, or both. Each product page will specify if variable data is available.

Products with variable text are easy to order; just provide the following:

- A mockup of what the finished product will look like
- All art or images (see "Electronic Guidelines") and text to be printed on the item
- A database file, such as a CSV, that includes:
 - The header, which is the first row of the spreadsheet that describes each column
 - The database, which is the information that varies as shown below.

The database file is the variable information to be printed on the product, set up in a spreadsheet. Excel files are appropriate for most product lines; CSV files are preferred for labels and specialty products like badges and signs.

For variable images, include the names of the relevant image files in the spreadsheet and include an image placeholder in the proof. Be sure to submit image files along with the rest of the order. Variable Image orders require all files to be submitted and reviewed before a quote is provided. Please contact us for more information.

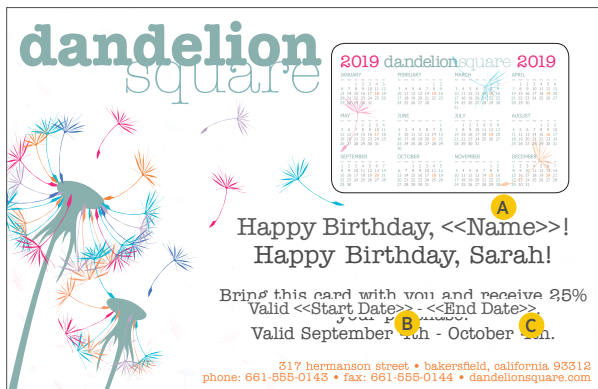

For variable text and variable images on the same order, please contact us for more information.

Variable Text Example

Customer database file:

	A	B	C
1	Name	Start Date	End Date
2	Sarah	September 4	October 4
3	Kara	September 7	October 7
4	Abigail	September 14	October 14
5	Jeannie	September 17	October 17
6	Ann	September 23	October 23
6	Shelley	September 25	October 25

Customer mockup file:

Final postcard example:

Variable Image Example

Customer database file:

	A
1	Animal Image
2	YellowLab.eps
3	LoveBirds.eps
4	Collie.eps
5	Bunny.eps
6	RedPuppy.eps
7	SiameseKitten.eps

Customer mockup file:

Final label examples:

Variable Data

Add charges below to your order. Variable Image orders require a quote.

Description	Item Number	Price Per Order
Variable Text	AEC-VTEXT-NAV7	\$31.25

(V) Production time: 1 additional working day.

Variable Data - Labels

Add charges below to your labels order. Variable Image orders require a quote.

Description	100-1,000	2,000	3,000	5,000	10,000
Variable Text for Labels	\$92.50	\$99.75	\$107.00	\$121.50	\$157.75

(V) Production time: 1 additional working day.

Electronic Guidelines

Color Requirements

We now have a new "Accurate Color" System. You can now send your files colored using the intended PMS color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

1. Raster Artwork: Submit black and white images or grayscale images at 600 dpi for standard spot printing. If raster artwork is placed into a layout program (InDesign, Quark, CorelDRAW, etc.), the artwork can be colored per our guidelines. (See "Coloring Your Files.")
2. Vector Artwork: Every element of the file must be colored with spot colors (no RGB, CMYK, etc.). (See "Coloring Your Files.")

Full Color Process Printing

1. Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.).
2. If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.
3. While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) colors using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from Pantone® spot colors, sometimes significantly.
4. To ensure the best possible results for your order, use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black to achieve the best result.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing.....	Conversion (CRUCIAL for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink.....	Black & PANTONE® Spot Color Swatch*
2 PMS Inks.....	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not indicated on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Native Applications

We accept files created in the following native applications:

Acrobat® PDF.....	Mac & PC PREFERRED FORMAT
QuarkXPress®.....	Mac & PC
Adobe® InDesign®.....	Mac & PC
Adobe® Photoshop®.....	Mac & PC
Adobe® Illustrator®.....	Mac & PC
CorelDRAW®.....	PC only

We **DO NOT** accept files created in the following native applications:

Microsoft® PowerPoint®.....	Mac & PC
Microsoft® Excel®.....	Mac & PC
Microsoft® Word®.....	Mac & PC
Microsoft® Publisher®.....	PC only

Application Requirements

PDFs — Macintosh or IBM Compatible

1. All fonts must be embedded.
2. All elements of the file must be colored per our guidelines.
3. All placed graphics and images need to be high quality, colored according to our guidelines (see "Coloring Your Files") for the product ordered. Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.
4. Name the PDF's without punctuation of any kind (except .pdf) or special characters. File names should be short.

QuarkXPress® — Macintosh® or IBM® Compatible

1. Change all text into "outlines" in your document. Outlines must be created in an illustration program before placing into your QuarkXPress® document.
2. Never use the style palette to modify fonts. That change will not show when printed.
3. Along with your file sent for placement, we need the supporting graphic file(s) given the same name as the graphic(s) in your document. (Changing the name after placement will make the graphic come up as "missing" or "modified" when read by our imagesetters.) Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

Adobe® InDesign® — Macintosh® or IBM® Compatible

1. Change all text into "outlines" in your document.
2. If you are using an imported graphic in your InDesign® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save as an INDD file.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

Adobe® Photoshop® - Macintosh® or IBM® Compatible

1. Files must be saved as a TIFF without compression.
2. If using spot printing, do not color an image in Photoshop®.
3. Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. Images are submitted at a lower quality than what is recommended will be output as sent.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")
5. All files need to be submitted at the size being used for printing.
6. If bleeds are needed, allow 1/8" (.125") on all sides unless otherwise noted.

Adobe® Illustrator® — Macintosh® or IBM® Compatible

1. Change all text into "outlines" in your document.
2. If you are using an imported graphic in your Illustrator® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save the file as an Illustrator EPS.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

GENERAL INFORMATION

Electronic Guidelines (cont.)

Application Requirements (cont.)

CorelDRAW® — Native Files

1. We do not recommend this application for full color layouts.
2. If CorelDRAW® is used, we cannot guarantee that colors for full color products will match what is seen on screen. You will be responsible for any color issues if native CorelDRAW® file is sent.
3. Follow established guidelines for all graphics. Placed graphics need to be colored correctly for the product ordered (see "Coloring Your Files"). Placed graphics need to be high quality or good vector art to receive the best quality printed product.
4. Create outlines (text to curves) on all type within a native CorelDRAW® file.
5. If there are text overflow issues, we may need to resize or reposition text to fit the imprint area.
6. Color all text according to our guidelines. (See "Coloring Your Files.")

Rights to Promotion

We reserve the right to use all products in our advertising and displays unless specified in writing at the time of order.

G7 Master Printer Qualification

Getting the right color is key, and we can deliver the quality you need. As a Certified G7 Master Printer, we are committed to using state-of-the-art technology, printing techniques, proofing, press controls, and standards to produce a stunning visual match from proof to press. Our certification allows us to offer you a precise color match at every stage of the print process, and we renew certification every year to keep that precision up to date.
